

We are a successful and growing systems specialist within the European space technology group OHB Technology AG, where over 1,500 highly qualified specialists develop and produce space technologies in Germany, the rest of Europe and the United States.

We are currently seeking for our national and international satellite programmes for immediate commencement a

**Software Development Team Head (m/f)  
(Code Number 190801)**

**Your specific duties will be to:**

- head a software development team
- co-ordinate an end-to-end development process for satellite software including the specification phase, design, coding and verification right through to final customer acceptance
- devise and/or enhance the overall software model
- co-ordinate the authoring of the software documentation in accordance with predefined standards
- define and implement development standards
- evaluate, select and source testing equipment and tools
- plan and co-ordinate software development steps
- report to the project management and the customer on the progress achieved

**Your qualifications:**

You have a degree in engineering with a major in electrical engineering, computer technology or space technology or comparable expertise. You have several years of professional experience as a software or system engineer, experience in project planning and coordination, knowledge of software development procedure models and familiarity with DOORS, UML, INNOVATOR, IBM Rational Rose, C, C++ and C#. Experience in using real-time operating systems (e.g. RTEMS's, VxWorks, NUCLEUS) and knowledge of bus systems, e.g. MIL-1553, CAN.

We expect you to act confidently in negotiations with customers. In addition, your duties will necessitate frequent travel as well as flexibility and the ability to work your way swiftly into new activities. Good written and spoken English is also required.

You can work independently and efficiently and enjoy working on a major project in a team. If you are able to meet these requirements, we would be pleased to receive your detailed application stating your salary expectations and the code number above by e-mail.
